Biweekly District Events Newsletter

A biweekly publication providing the latest school and community events to help keep our readers informed.

Congratulations!

Thirteen students scored 100% on the Federal Constitution. There are two parts that make up the Constitution, Federal and State. The 8th grade students must pass both parts along with the completion of a research paper are some of the requirements for graduation.

"59% of the students received an "A" and 89% of the students received a C or better!!! This graduating class of 2020 has had the most success on the Federal Test in the past 14 years!" Mrs. Fergus, 8th Grade SS

The 5th grade students at Madison School participated in the Super Savers Program from ComEd and Nicor Gas. Students learned about using energy and water resources wisely. Each student received a student activity book as well as a Super Saver Kit with materials to use in their homes.

On February 10th, Taft students celebrated being in school 100 days.

Check out the videos and more pictures on our Facebook Page.

Madison

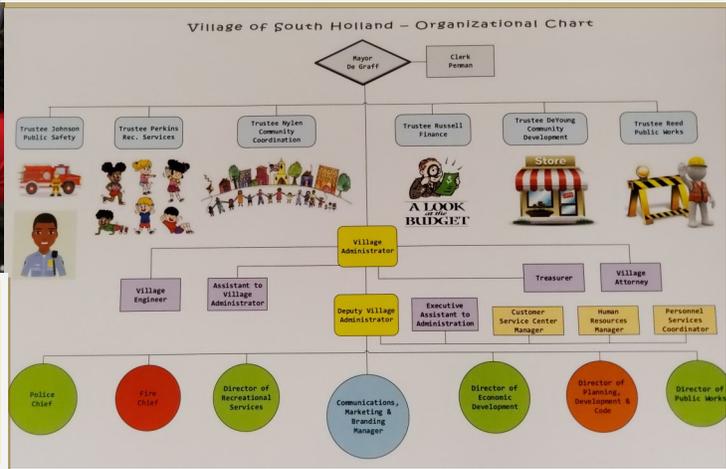

The Student Council members of Coolidge Middle School and Madison School wanted to learn more about Local Government. The Village of South Holland came to their aid. Mayor Don De Graff, Trustees De Young, Nylen and Russell along with Administrators Pat Mahon and Sue Turner spoke with the students; answered their questions and took them on a tour

of the Village Hall, Fire Station, Public Works Garage, and Customer Service Center. After the tour, the conversation continued over lunch.

Coolidge and Madison Student Council learning about Local Government.

CONTINUING EDUCATION

District Institute Day is devoted to strengthening our teachers and staff members. The Institute Days are set aside to help teachers and staff members enhance what they are currently doing in the classroom. It is during this dedicated time that they are able to participate in continuing education workshops. This helps keep them current with the latest teaching methodologies.

Snap Pics from Institute Day

CELEBRATE GOOD TIMES!

On February 4, 2020 the ladies of CLASS came together like they do each quarter to celebrate academic achievement as well as birthdays. Featured in the pictures below are 6th, 7th and 8th grade honor roll students for second quarter! If you see these ladies around congratulate them on a job well done! Also pictured are any mentees or mentors that celebrated a birthday in November, December or January.

Ms. Shaunte Brown

Congratulations Pre-K

Taft's Preschool for All program has been awarded ExceleRate Illinois Gold Circle of Quality. This is the highest designation the State of Illinois bestows on Early Learning programs. Taft's Preschool Teachers were recognized for their commitment to providing quality early childhood education to children in our district. Taft will keep the Gold Circle of Quality designation until our next state monitoring visit in 2022. We are so proud of this great accomplishment.

Principal Wilson

Each year the Nunafatima Drummers and Dancers perform at Taft School. They introduce the students to new sounds, dances, language and vocabulary. The performance is outstanding. They were able to have the students and teachers singing and dancing to African music. Everyone had a great time.

If you would like to see the dancers and hear the music, visit our Facebook page.

Beauty and the Beast

Each year it is our goal to expose our ladies of CLASS to a variety of cultural events. This year they had the opportunity to see a production of Beauty and the Beast and the Paramount Theater. Following the production we had the opportunity to experience a question and answer session with the cast.

South Suburban College Coding Specialist Program to host February 29th Open House

OAK FOREST, IL—South Suburban College Department of Allied Health & Careers is hosting an Open House for the Coding Specialist Program on Saturday, February 29th from 9:00 a.m. – 10:30 a.m. at the college's Oak Forest Center.

Coding Specialist is a three semester, 40 credit hour certificate program (including prerequisites) with excellent job potential. The program is one of only two in the State of Illinois approved by the American Health Information Management Association (AHIMA). Upon successful completion of the program the student will be eligible to sit for the following coding exams administered by the American Health Information Management Association: Certified Coding Specialist-Physician Based (CCS-P) and Certified Coding Specialist (CCS). Students also enjoy the benefit of a virtual internship and coding exam review during the final semester.

The Coding Specialist Open House is an excellent opportunity to speak to instructors who are experts in the field about a program that provides flexibility for traditional students and returning adults who are balancing career and family responsibilities. Courses are offered on nights and weekends three days per week on Tuesday and Thursday evenings, and Saturdays. Class locations include both the Main Campus in South Holland and the Oak Forest Center.

New in 2019 are two annual entry points for admission into the Coding Specialist Program. Prospective students will need to complete four basic prerequisites before applying for acceptance by July 15th for Fall Semester and by December 15th for Spring.

The Open House will be located in Room 5230 at the Oak Forest Center – 16333 South Kilbourn Avenue, Oak Forest, Illinois 60452. Please contact the Allied Health & Career Programs Department at (708) 596-2000, ext. 2204 or email vebrooks@ssc.edu
